Re: California Proposition 65 Compliance Declaration

California Proposition 65 is a voter initiative that entitles California consumers to special warnings to protect citizens from products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold limits.

This Certificate of Compliance certifies that based on a thorough internal review, and the information available to us, Lake Shore Cryotronics products are not covered by Prop 65 requirements, as they are not consumer products. Proposition 65 warning requirement does not extend to out-of-state manufacturers of industrial products selling in California for industrial and commercial use only.

All information provided in this Certificate of Compliance is accurate, to the best of our knowledge, as of the date this certification was issued. For additional inquiries, please visit our [compliance certification page](#) or contact our corporate compliance manager for more information.

Sincerely,
